

DANCE

We welcome you to our DA dance program. Dance has so many long lasting benefits, such as building self-esteem, endurance, strength, grace, learning to work with others and so much more! It's our dream come true to see our students make their middle school, high school and collegiate teams. Our program is designed to see our dancers make their high school drill teams, college pom squads and professional sideline cheer/dance teams. We are equally as proud of seeing the growth of each of our students and the joy on their faces when they accomplish a new skill or come in as a very shy person and then light up the stage with stellar showmanship. We ask that you consider your daughters future goals when selecting a program. In order to have growth, 100% dedication is required. If your child wishes to be on a high school or college dance team, they will need to be trained in ballet, jazz, hip hop & pom + tumbling for any required skills of a collegiate hip hop team. If they would like to have a shot on a Broadway show, they will need to be trained in ballet, theatre, tap, jazz + voice lessons. For a professional NFL/NBA dance team, depending on the team most are based in jazz, pom, and hip hop. Ballet is the foundation of dance and is recommended for all students in order to be a well-rounded performer. Dance at the professional level is extremely competitive and many hours of training is necessary even working outside of class time perfecting their skills. In all of our classes (even the toddlers), dancers will learn correct terminology with a huge focus on development and proper technique. Even though we have designed our program to assist dancers to get to the next level, we do want everyone to feel welcome regardless of future plans. We understand the benefits of dance for everyone and want all of our students to always think very highly of their time training at Diamond Athletics, to build memories and to have fun while learning.

CLASS LEVELS

RECREATIONAL & I-II CLASSES

For the dancer who appreciates the discipline of dance and enjoys being with his or her peers, but may have other extracurricular activities or constraints that prevent them from devoting a large amount of time or commitment to their skill, we have our Recreational Program. We understand the youth of today are interested in many activities, and may have different obligations. This program offers an opportunity to train and progress with peers utilizing a relaxed schedule with a low level of commitment. However, it is important to realize that dancers who train more often have a tendency to progress quicker than the recreational dancer and therefore if the individual goals are not being met they may want to consider a more intense dance program here at Diamond Athletics.
